**Meeting Minutes**

Dr. Waxler called the meeting to order at 10:16 a.m.

The minutes for the December 2003 New Jersey State Mobile Intensive Care Advisory Council Meeting were approved.

**MICU FUTURE PLANNING**

*DR. LARRY DESROCHE*

Medical director board certification, regulations do not clarify which board is accepted regarding medical command physicians.

Currently there are two recognized boards (AOBEM, ABEM) Discussion ensued to allow the third board (BCM). If board certified the requirement to have ACLS, ATLS and PALS are waived. Proposal to accept only (AOBEM, ABEM) for purpose of meeting NJAC8:41 xxx medical command.

Motion to accept two boards only.

CPR with just compressions- discussion on this procedure. Verify guide card protocols

RSI- Concerns over the end-tidal CO<sub>2</sub> of patients.

**MEDICATIONS/DEVICES**

*DR. WILLIAM GLUCKMAN*

LMA Pilot – Phone conference of group. Roll-out would best be done through MICU as was AED. Education training fund would cover only the volunteers. Funds also needed for train the trainer. Medical oversight 100 % physician overview, through MICU medical director and possibly a sub-committee from MICU advisory board. Database for information storage.

Feasibility for roll-out. The feeling from the Medical Directors is to extend the pilot to larger areas for increased data collection.
